Ans 4

```python
import math, random
def generateOTP():
        digits = "0123456789"
        OTP = " "
        for i in range(4):
                OTP += digits[math.floor(
                                random.random() * 10)]
        return OTP

if __name__ == "__main__":
        Print("OTP of 4 digits:-", generateOTP())
```
